THE BROOKLYN ALDERMANIC BILL PASSED IN THE SENATE.

\$1,000,000 for the State Prisons-Protest Against the Immigration Commissioners' Report-Graham's Car Drivers' Bill. ALBANY, Feb. 10 .- The Senate kept on with its Brooklyn measures to-day and passed the bill to elect Aldermen by wards instead of by Assembly districts. Though the city is strongly Democratic, eleven of the twenty-six wards are Republican. The law providing for electing

Senator McMillan offered a bill prohibiting the employment of children under 14 instead

of under 13 years in factories, prohibiting the employment of females under 14 in mercantile houses, and providing that affidavits as to age. &c.. must accompany children between 14 and 16 employed in factories; declaring a violation of the act a misdemeanor; requiring a violation of the act a misdemeanor; requiring elevators in factories to be enclosed, if the inspector deems it necessary, and rails to be provided on staircases, doors to open outward, suitable fire, escapes to be put in, all factory accidents to be reported to the State Inspector in forty-eight hours; requiring distinct male and female wash rooms and cabinets; not less than forty-five minutes to be allowed for dinner; a copy of this act to be posted in every factory and mercantile house; providing for ten deputy inspectors at \$1,200 per annum; exempting from July 1 to Sept. 15 fruit-canning establishments. A protest received from Emigration Commissioner Edmund Stephenson to the report of that Commission says that the report contains statements which he knows to be false, and which are designed to deceive the Legislature, and injurs the people of the State. The report says the Board has no funds to pay the interest on the Comptroller's mortgages, and asks for an appropriation for that purpose and for building repairs, and for \$50,000 to pay Lewis Sanders counsel fees. Mr. Stephenson says that besides a large balance at Washington, the Board has \$23,340, which he deems the property of the State, and which would more than pay the \$8,000 interest on the State mortgages. The revenue of the State he deems sufficient to pay interest and for repairs.

The vote was a strictly party one, only one Republican, Chairman Cole, in advocating the adverse report, said: "It is a bill to protect strikers. If it is required at all it is required by the Knights of Labor. In cases of strikes, under this bill companies would find it difficult to secure help, as it requires that horse car drivers shall have a license of \$1, and shall show that they have been in the city thirty days."

Mr. Platt introduced a bill fixing the age of consent of females at 18 years.

Mr. Graham introduced a bill amending the Penal Code by defining conspiracy. It provides "that no act shall be deemed to be unlawful because done or agreed to be done by a number of persons which would not have been unlawful had it been done or agreed to be done by a single person. This relates to boycetting. Section 552 is amended so as to define extortion, as follows:

The Assembly Appropriation Committee heard statements this afternoon from the heads of departments as to the amounts required by them to be inserted in the annual appropriation hill. Dairy Commissioner Brown asked for \$100,000, Adt.-Gen. Porter for \$500,000 for the Stational Guard. Dr. Baich for \$25,000 for the Battonal Guard. Dr. Baich for \$25,000 for the Battonal Guard. Dr. Baich for \$25,000 for the Battonal Guard. Dr. Baich for \$25,000 for the Insurance Department, Chancellor Pierson \$163,000 for rifle practice and \$10,000 for rifle ranges.

A novel incident came early in the day in the Assembly when Mr. Finn of the Battery district rose to a question of high privilege. It is solden that Mr. Finn makes a speech, though the Speaker thinks so highly of him that he made him the sole New York member of the Committees of Ways and Means and Banks. Mr. Finn said that a circular containing charges against him had been sent to the Assemblymen. At first he intended Banks. Mr. Finn said that a circular containing charges against him had been sent to the Assemblymen. At first he intended to pass it by, but his colleagues had advised him to answer it. "In justice to them," he said, with damp eyes and broken voice. "I stand here and brand that document as an infamous lie from top to bottom."

The circular was sent through the mails to all the Assemblymen. It was dated New York, Jan. 28, 1887, and was signed James Sheridan. It contains a dozen specific charges, among which are these: That Mr. Finn had been a dealer in a Bleecker street gambling house, that he received \$2,500 from Mr. Pheips for defeating a bill compelling the elevated roads to build a guard rail on their platforms, that he received \$2,000 for voting against the gas bill, and that he is the owner of a "joint," as the circular calls it. No proof of the charges was offered, and Mr. Finn said that he knew no man of the name of James Sheridan.

The Coal Strike Committee will have another session in New York before reporting. There is likely to be a disagreement.

MAYOR HEWITT ON THE STRIKE.

His Letter Read Last Night at the Dinner of the Stationers' Board of Trade. The Stationers' Board of Trade sat down to its twelfth annual dinner at the Hotel Brunswick last evening. President H. B. Barnes pre sided, and at the guests' table were Mark

It was a very jolly dinner, and about 9% o'clock President Barnes rapped for order. Speeches were made by C. C. Beaman, Commissioner Tainter, and the Rev, Lyman Abbott. The following letter from Mayor Hewitt called forth great applause:

Menry B. Barnes, Esp. Chairman

I have many reasons for destring to attend the dinner of the Stationers and Bookseliers, and I have held on to the hope until now I see my expectation is In vain; even if I should gat out of the house by the 10th prox. Apologizing for this imperfect statement of the views which I had hoped to expound more at length I am very truly yours.

Mr. Clemens made a partly serious and partly humorous address. He rapped Wanamaker of Philadelphia over the knuckles for his action in underselling Grant's Memoirs. He said there was no word in the Dictionary sufficiently strong to express his opinion of the matter. When he got out a dictionary himself it would be there.

Mr. Depew said he was glad to hear Hewitt's letter, as it was the most important communication yet made on the present industrial conditions, A new idea had recently appeared that when somebody felt aggrieved a secret council might declare a paralysis of trade. Because there was slight trouble in some distant faction the public might be deprived of food, fuel, transportation, and other necessities. To his knowledge attempts had been made to bring about great strikes lately by offering the leaders of unions a year's salary in advance. He believed in labor organization and the right to,strike, and the liberty to work or not to work of any man, without interference from anybody clese.

Kansas City Buys the Franchise-New York

Ever since the Pittsburgh Club became a member of the League it has been an open question as to what club would be dropped. At first it seemed to be a settled thing that the Kansas City Club must go. Then it was reported that both the Kansas City and the St. Louis clubs must drop out, and that the players would go to a syndicate which had been formed in Indianapolis. It was not until one day last week, when THE SUN published an interview with the President of the Kansas City Club in which he said that he wanted to buy the St. Louis Club, that the true story of the deal became known. At a meeting between the President of the Kansas City Club and the League committee an under City Club was permitted to buy the franchise of the St. Louis Marcons, with the understanding that all the players, with the exception of

ing that all the players, with the exception of Denny and Glasscock, would go to Kansas City. The excepted players were to go to the Chicago and New York Clubs. This story was denied by President Stromburg.

Reliable information was obtained yesterday that, though at that time the sell-out was not an accomplished fact, negotiations were pending, and that these negotiations were pending, and that these negotiations eventuated yesterday in the transfer of the franchise of the Marcons to Ransas City. With the exception of Denny and Glasscock, Kansas City will have it a pick of the players. Denny comes to yesterday in the transfer of the franchise of the Marcons to Ransas City. With the exception of Denny and Glasscock, Kansas City will have its pick of the players. Denny comes to New York, while Chicago gets Glasscock. The rest of the players are left to Kansas City, and she will strengthen her team with them.

CHICAGO, Feb. 10.—Prosident Spalding of the Chicago Club said to THE SUX correspondent to-night: "The position of the Chicago Club in reference to playing Kelly this season remains unchanged. He will play in Chicago or not at all, and I confidently expect to find his name on our rolls before the playing season begins. I am inclined to think Kelly is wrongly reported in the New York interviews, for I know of no reason why he should refuse to play with Chicago on account of his personal dislike of me. No cause exists for such dislike, unless possibly it arose in connection with the fine of \$200 imposed upon Kelly last season for violation of the total abstinence rule. He urged hard to have the fine romitted though he admitted his guilt, but as he was in the same boat with six or seven other members of the club. I told him that I could not properly make an exception in his favor. I have lately received a letter from Mr. John B. Day assuring me that no person holding any official connection with or in any manner having the sanction of the New York Club is meddling with Kelly. This I believe to be the truth."

In regard to the Interview with Kelly, published in a Now York paper yesterday, James McCormick, the Chicago pitcher, says: "Kelly has not been in the city since has Sunday, and I do not think he ever saw the writer of the article. There is no truth in it."

A Fight with Navajo Indians. ALBUQUERQUE, N. M., Feb. 10 .- A fight occurred on Monday between a Sheriff's posse and a band of Navajo Indians that may lead to an Indian outbreak. George Lockhart, deputy sheriff of Navajo Springs, ac-companied by Ed Palmer and Tom King, started for the equipanied by Kd Palmer and Tom King, started for the Navajo reservation to arrest agilndian for horse stealing. They found him in the most thickly settled portion of the reservation, surrounded by a large party of his own tribe. The indian resisted arrest, and Lockhart fired, stilling him instantly; whereupon the other Indians opened fire on the three men, and a general hattle look place. Lockhart, Falmer, and king were killed, and left lying where they call. The Sherin's posse killed two indians and wounded two others but the olds were too great against them. The Indians then rode off to Bennet's stora, near Manuello station, on the Atlantic and Pacific Railroad, and stole all the provisions they could carry off. The excitement is high, and the people living around the reservation say they will have ten Indians for every white man killed.

The House then went into Committee of the Whole on the Consular and Diplomatic Appropriation bill.

Mr. Allen (Dem., Miss.) said that he had been provoked into a discussion of this bill by some remarks made by Mr. Cox of North Carolina. That gentleman had spoken with sneers about some friends of his, and had made disrospectivi remarks about his friend Judge Waxem and his constituents from Way Back.

Mr. Cox said that he would apologize for those remarks.

Mr. Allen said that it was very easy for a member to disparage a man, and then get up and apologize. (Laughter). But the gentleman in speaking of Judge Waxem had said that he would much prefer to go to the Secretary of State for information as to the diplomatic service than to go to gentlemen on this floor who had been spending their summer in canvassing among their rural constituents. The scope of the gentleman's remarks was that when a member came to Washington and was in the midst of high teas and receptions, and all the glamor of society and eloquence and Brussels carpets and electric belis, and servants everywhere to brush him down, he should forget what he learned from his constituents, and go for information to officers who lived in palaces. (Laughter). He had never had experience on the Committee on Appropriations of the House, but he had served as Chairman of the Finance Committee of the Board of Aldermen of the town of Tupelo, Miss., and in one year expended the enormous sum of \$900. (Laughter). This experience had been worth something to him. He had paid some attention to the legislation of the country, and he was bound to say that the criticisms made yesterday by the gentleman from Illinois (Mr. Cannon) against the Domocratic party were just and appropriate. He remembered that in 1876 a Democratic Committee on Appropriations brought in a Diplomatic end of the country, and he was bound to say that the criticisms made yesterday by the gentleman from Illinois (Mr. Cannon) against the Domocrati

LAWLESS 14TH STREET RAIDED. Huber's, Gunther's, and Thelm's Taken in in One Night's Swoop,

East Fourteenth street festivities received a damper early last evening. At 8 o'clock a nominal beginning is made in these resorts of the gayety that lasts nearly until dawn and reaches its height in the neighborhood of midnight. But it was not long after 8 o'clock last night. But it was not long after 8 o'clock last night when the development of hilarity was checked by a very large and heavy wet blanket. Superintendent Murray's detectives, Cooper, Collins, and McCord, and Capt. McCullagh, with the reserves of the Fifth street station, in plain clothes, did the blanketing. Huber's Prospect Garden. The small audiences that had already gathered in the raided places were speedly dispersed by the announcement that the show

"Stocks are not high enough for them," added Mr. Wloox; "every-thing points to a bull market, and I believe before this thing points to a bull market, and I believe before any year is out prices will be so high that present figures will be looked back upon as low. The railroad earnings are good, and the presperty now noticed in this country will, to my mind, continue for three years or more. The only offset is the accumulation of money in the United States Treasury. Congress must do something to reduce the surplus, even if an extra session is necessary."

Mr. Frederick G. Le Hoy of Bashem, Thompson and Le Roy of the Stock Exchange laughingly said that one of his partners is a buil, smother a bear, and he was on the fence. "It would appear that the conditions warranted a buil market," continued Mr. Le Roy, "but many outsiders are very nervous over the Inter-State bill. It is difficult to find a very pronounced buil or bear down here, and I would prefer to let the market alone at the moment. Pools? Oh, yes, I bear much about pools, but close investigation fails to show just which stocks are pooled. It is a good time to keep a sharn lookout."

The wheat bulls on the Produce Exchange had another sickly day, though they improved somewhat at the close, when % of a %-cent decline was recovered. The cables were weak and brought some selling orders. For the first time in a month or more Deacon Stephen B. Post has been nipped by his daily associates in the wheat pit on the Produce Exchange. Mr. Fost has all along sold a ream or two of one dollar puts very close to the market, and invariably pocketed about \$150 a day. On Wednesday he "put" out 150 boat leads of May at 94. RAILEGAD AND OTHER SHARES.

CLOSING PRICES.

THURSDAY, Feb. 10. To-day's stock market was strong and fairly active. The movement of prices was not altogether uniform, but this was not significant considering the advance that some stocks have made the last few days. The most noteworths and encouraging feature of the market was the wider distribution of the dealings. In fact, the market presented an unusually natural appearance. The London market following the lead of this one opened strong, and this in turn helped our own at the opening, so that the first quotations averaged about 4 7 cent, above the final quotations of yesterday. The foreign dealers were again buyers rather than sellers of stocks.

The indications were of some realizing by the operators who have been the conspicuous buyers of late, and also of extensive purchases of several stocks apparently against short contracts. The selling referred to was to be expected, and, though it checked the advance in St. Paul, Pacific Mail, and Reading, it did not discourage the buying in Northwestern, Eric, Lake Shore, and indeed, throughout the general list. There was some disposition to regard the advance in certain stocks as incidental to the marketing of others, and this to an extent may have been true, but the indications are that manipulation had very little to do with to-day's market. In the afternoon the realizing referred to began to be felt, and a fresh selling movement developed in Union Pacific in connection with the publication of the December statement, a summary of which is given below. Reading was sold pretty freely and effectively. These two and Pacific Mail and Consolidated Gas closed lower than yesterday, while the rest of the list was, as a rule, highor.

The difference between the Pacific Mail and the Panama Companies were substantially settled to-day, and only formalities remain to be disposed of. The terms are practically, those given in this column this morning. The Oregon stocks were more active and higher to-day, in connection with the action of the Oregon Railway and Navigation lease to the Union Pacific. This measure passed the Lower House yesterday. In the Unlisted Department Chicago and Indiana Coal Hailway common stock sold at 52%52%, Lake Eric and Western preferred 60%661. American Coaton Seed Oil Trust Certificates 63%62%, and mexican National lists 38%39. A large part of the stock tape was taken up with quotations of the Security Milling and Mining stock. Manipulations of this character are too transparent to deceive any one, and upon an active day the publication upon the tape of what purport to be quotations of such stocks, interferes seriously with the prompt distribution of the quotations of the market proper. This abuse of the tape has assumed such proportions the operators who have been the conspicuous buyers of late, and also of extensive purchases
